 At Hutchinson Kansas her name is on the property sheet They all reliable and at fault
 and very negligent It shows I had a 13 Inc Color TV K TV that I've had for almost
 two decades I had a Big Street size boom box the kind you plug in the wall I had
 double Cassette player It prove that I had over two hundred photos in which I don't
 got not one of them and they mean every thing to me they were my Family and
 Friends in Coffins that I'll never be able to see again I am torn in many ways
 and the mental anguish truly gets the best of me They truly need to be held accountable
 For there wrong actions they are very Rical power struck and they abuse they authority
 and invoke fear to make you do what they want or you going to suffer like they
 have put me threw all my personal belonging didn't disappear my desire is to be Reimbust
 For all my personal property and I truly deserve to be compensated for every thing
 they done still doing and taking me threw every thing I owned had sentimental
 value special my photos Please hear is the edvence they half to pay for what they
